USF Parking Policies

- All campus parking lots are monitored for proper permits during the following hours:
- Monday – Thursday 7:30 am – 9:00pm
- Friday 7:30am – 7:00pm
- Saturday, Sunday and late-night weekday hours, University Police are responsible for monitoring all lots for health and safety issues only.

Reserving Spaces:

- Determine the number of parking spaces needed
- estimate 2 people per car when inviting couples/guests
- do not count USF staff who have parking permits

When you reserve spaces, Parking Services will provide red cones and A-frame signage that totally block the number of spaces for you.

- Reserving Spaces is the process to request for events:
 - that will take place during the work day
 - involving the President, Board members, and our high level donors, no matter what time of day
- Charges: \$10.00 for the first 10 spaces. \$5.00 per space for the rest
 - You will be billed by Parking Services for the total

When you request lot access, Parking Services will:

- Check calendar to see if other events in the building or vicinity are going on at the same time
- Give Parking Services an estimate of spaces you'll need, even though guests can park anywhere in the lot
- Notify the campus ticket squads about your event and official request
- Tickets will not be issued due to this notification
- Requesting lot access is best for events that begin AFTER work hours, provided no other events are going on
- Charges: \$2.50 per space
- Signage is not included, but it can be provided by Parking services for \$5.00 or \$10.00 per sign
